

## BROCO® UNDERWATER BR-21 WELDING STINGER

<b>PRODUCT CODE</b>	<b>BR-21</b>
<b>FEATURES</b>	<ul style="list-style-type: none"> <li>• BR-21 is lightweight, durable and designed to hold the electrode at the optimum angle to reduce diver fatigue.</li> <li>• Index notch on the head helps divers find the hole, even in the dark. Improves rod insertion in low-visibility environment.</li> <li>• Beveled seat keeps electrode at ideal angle. Groove eliminates electrode "wobble."</li> <li>• Over-sized head is easier to hold.</li> <li>• Resistance O-ring on the shoulder ensures tension when head is tightened, increasing head life.</li> <li>• Handle and head are from hexagonal stock and provides diver with a solid grip with a gloved hand while welding.</li> </ul>
