

## MEDICAL OXYGEN QUAD

For offshore diving operation where critical situations may occur a **MEDICAL OXYGEN** is essential to save one's life.

It is a safety requirement to always have available medical oxygen supply during every offshore operation.

A **MEDICAL OXYGEN QUAD** comes in 12 Cylinders fitted with regulators and gauges to control and measure the oxygen pressure.

### SPECIAL FEATURES:

- **Cylinders** are connected with a tubing system made of high quality **TUNGUM TUBE** compatible and approved with all industry recognised tube fittings.
- 
- **Fully Tested** (hydro test, pressure test, load test for lifting pad eyes and MPI).

<b>SPECIFICATION:</b>	
No. of Cylinders	12nos.
Cylinder Capacity	50ltrs.
Working Pressure	200bar
<b>PANEL</b>	
Control Valves	Parker
<b>FRAME</b>	
Material	Mild Steel (MS)
Dimension	
Weight	
Thickness	

<b>Industrial &amp; Medical Specification (US)</b>	▪ <b>Oxygen – 99.0% (meets Oxygen USP)</b>
	▪ <b>Odor - None</b>
