

## BROCO BRO-BR-22 PLUS BR-22 PLUS CUTTING TORCH

### FEATURES:

- Redesigned collet provides tighter hold on the cutting rod. Redesigned collet washer removes rubber from the oxygen stream and extends washer life.
- Ceramic washer provides noncombustible electrical isolation.
- PTFE lined fiberglass reinforced hose withstands extremely high operating temperatures and is combustion resistant.
- The internal gasket reduces electrolysis, insulates the diver's hand from electrical current, and reduces potential for gas pockets in the torch.
- Sintered element slag arrestor withstands more heat and sparks and increases oxygen flow rate.
- Non-return valve stops the flow of hot gases in the event of a flash back.
- Valve lever and valve stem have been redesigned to allow manual return should the valve stem get stuck.
- Redesigned valve to better meter flow.
