

## PORTABLE 3 DIVER AIR CONTROL PANEL WITH 3 DIVER RADIO AND 1 DIVER CCTV

### DESCRIPTION:

- The Portable 3 Diver Air Control Panel is an IMCA compliant design. It is suitable for diving operation where site conditions have limited accessibility. It allows the Diving Supervisor to operate closely and safely.
- The Control Panel is built-in a pelican case to protect and prevent sea water ingress during rough sea. It is easy to service and maintain.
- The Control Panel is supplied with LP supply inlets and aqua flow regulator supply.
- The air supply consists of emergency cross-over valve and safety valves.
- The umbilical does not kink or bend when fitted out.
- The radio communication system is provided with a battery back-up.
- The Portable 3 Diver Air Control Panel comes with 3 Diver Radio & 1 Diver CCTV.
